Railroads and Steel Issues Affected.

Note-Quotations reflect closing males Monday, Fol. 16.

New York. Feb. 16.—The severest setback which the market has experienced this year came today. Prices at last broke away from the approximate level which had been maintained for weeks. Further suspension of the new fraight rate schedule by the interstate commerce commission ended all hopes of a speedy advance and railrond shares bought in anticipation of a rise when the increase was granted were inflonded.

and all hopes of a speedy advance and railroad shares bought in anticipation of a rise when the increase was granted were unloaded.

Industrials were depressed by reports of reductions in wages of steel mill workers. Steel, which has been conspiculously firm recently, was sold freely, and weakpass of this issue permented the whole list. The liquidation of minor shares also had an unsettling effect. The break failed to attract outside buying and the market made no recovery during the morning.

Bonds were heavy.

Poreign sales were estimated at 59,000 shares. Western Union showed exceptional attracts, it is not be price upward and it soid at 25, the lighest since 1010.

Activity went out of the market when efforts were made to rush prices. Strength of American Telephone and Western Union was associated with rumors that the telephone company's holdings of the telegraph stock would be syndicated.

The market closes heavy. A sharp fall in the peiroleum shares, in which Mexicun lost nearly five points had an unsettling effect. Prices returned to the lowest.
